

REMARKS

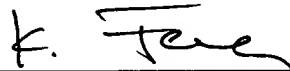

Applicant notes that this application Serial No. 09/732,953 was filed on 12/07/2000 and is a Continuation of application Serial No. 09/385,693 which was filed on 08/30/1999 (now US patent 6,198,777). Thus the subject matter of the pending application has been pending for about 5 years and for business, licensing and revenue generation reasons, rather than for reasons related to patentability, Applicant has chosen to cancel claims 1-8 and 10-13 and to move the allowed claims 9 and 14 as expeditiously as possible toward patent issuance.

Should any additional remaining issues be identified that would prevent issuance of a Notice of Allowance, and patent issuance of or other questions or concerns, the Examiner is urged to contact the undersigned Applicant at tel. 1-530-753-0738 or via e-mail to feherk@yahoo.com or Fax 1-530-753-1788.

Consideration toward early allowance and patent issuance is respectfully requested.

Signed this 6th day of December, 2006, at Solana Beach, California

RESPECTFULLY SUBMITTED,

Kamilo Feher, Applicant/Inventor
